Big Swing for Early Childhood Nutrition

Association of Former International Civil Servants Philippines (AFICS-PHL)
Philippine Business for Social Progress (PBSP)

You are invited!

The Association of Former International Civil Servants Philippines (AFICS Philippines) and Philippine Business for Social Progress (PBSP) invite you to tee off for a cause at the 1st AFICS Golf Cup: "Big Swing for Early Child Nutrition" on 5 March 2027 at Camp Aguinaldo Golf Course, Quezon City.

Proceeds from the tournament will support PBSP's *MaMa (Masustansyang Pagbubuntis, Masiglang Kamusmusan) First 1000 Days Program,* which provides essential healthcare, nutrition support, and maternal health education to vulnerable mothers and infants in Quezon City.

Player Registration: ₱5,000 per player

Registration includes:

- Green Fee and Tournament Fee
- Caddy Fee and Shared Golf Cart
- Raffle Entry
- Buffet Lunch and Fellowship Program
- Gift Bag

If you are interested in joining, you may pre-register to reserve a slot by using this link: https://bit.ly/AFICSGolfCupRegistration or contacting Alfred Lacbayo, via email at fred4ngo@gmail.com or via Viber at 0915-767-2045. Alternatively, feel free to reach out to any fellow AFICS member you know for assistance. For more details, visit the AFICS 1st Golf Cup web page using this link: https://www.aficsph.org/golf-cup.

Please note that slot reservations are valid until December 30, 2026. If payment is not received by this date, the reservation will automatically lapse and the slot will be offered to other interested players.

We look forward to seeing you on the green!

Sincerely,

Ma. Alcestis Mangahas
President, AFICS-PHL

Gen. Jaime "Jimmy" Delos Santos
Chair, AFICS Golf Tournament Organizing Group

Organized by:

Association of Former International Civil Servants (AFICS)
Philippine Business for Social Progress (PBSP)

ABOUT THE ORGANIZERS

AFICS Philippines

Formally established in 2008, the Association of Former International Civil Servants. Philippines (AFICS-PHL) is an association of retirees and long-serving employees of the United Nations and its associate agencies.

Outreach to the most marginalized aligned with the attainment of the SDGs is an integral part of AFICS mandate. For 2026-27, AFICS has identified the reduction of child malnutrition as its Outreach priority.

Philippine Business for Social Progress

Founded in 1970, PBSP operates at the nexus of corporate citizenship, sustainable development, and poverty reduction. It remains the largest business-led NGO for social development in the Philippines.

PBSP designs and implements programs and projects on health, education, environment, livelihood, and social inclusion that uplift the lives of Filipinos in need.

AFICS-PHL and **PBSP** are joining forces to help address early child malnutrition and stunting in Quezon City. Working in partnership with the **Quezon City Government**, the **MaMa program** will expand to the barangays with the highest malnutrition rates. Poor and malnourished pregnant women and their newborns will receive the critical MaMa interventions under the program for 1000 days. Major proceeds of the **1st AFICS Golf Tournament will support the MaMa Program.**

ABOUT THE MAMA PROGRAM

Nutrition should be treated as a national development and investment priority, particularly focusing resources on the first 1000 days (of a child's life). Stunting and wasting is irreversible after children reach age 2.

Every US $1 invested in a package of nutrition interventions could generate about US $12 in economic returns.

The returns come from reduced child mortality, better cognitive development and adult productivity, reduced anemia-related productivity losses and lower health care costs.

Masustansyang Pagbubuntis, Masiglang Kamusmusan (MaMa) First 1000 Days Program is a curation of comprehensive programs designed to secure a child's normal nutritional status during the crucial first 1000 days of life.

The 36-month program seeks to sustainably support communities with high malnutrition rates through:

- **Complementary feeding**
- **Maternal and child care initiatives**
- **Nutrition education**
- **Multiple micronutrient supplementation**
